Education

Indian Institute of Information Technology Design and Manufacturing Jabalpur Aug 2024 – Jul 2028
Bachelor of Technology in Computer Science Jabalpur, Madhya Pradesh

CPI: 8.40

Relevant Coursework: Database Management Systems (DBMS), Machine Learning, Artificial Intelligence, Data Structures & Algorithms, Operating Systems, Computer Networks, Object-Oriented Programming (OOP)

Technical Skills

Languages: Python, SQL, C++, Java, JavaScript, C, PHP, HTML, CSS

Data Analytics: Pandas, NumPy, Scikit-Learn, XGBoost, CatBoost, LightGBM, Matplotlib, Plotly, NLTK

Frameworks: Node.js, Express.js, React.js, Flask

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, RESTful APIs, Postman, Excel, Streamlit, Render, Vercel

Experience

Future Founders Internship @ OkCredit | [GitHub](#) | [Live](#)

Jul 2026

Developer

Remote

- Created **StockPilot**, an intelligent warehouse and inventory management platform using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented **JWT authentication**, **role-based access control (RBAC)**, and RESTful APIs to enable secure user management and efficient inventory operations.
- Integrated **Groq** to provide intelligent inventory assistance and collaborated with a team of 3 to design and deliver a scalable merchant solution.

Gridlock Hackathon 2.0 | [GitHub](#)

Jun 2026

Participant

Online

- Analyzed 72K+ transportation records using Python, Pandas, and machine learning to build a traffic demand forecasting solution.
- Engineered 20+ temporal, weather, and geospatial features to improve demand prediction and identify key traffic patterns.
- Implemented predictive models achieving an R^2 score of 0.9587 using 5-fold cross-validation, supporting accurate demand forecasting for data-driven planning.

Projects

Duplicate Question Detection | *Python, XGBoost, Flask, NLTK, TF-IDF* | [GitHub](#) | [Live](#)

May 2026

- Analyzed 404K+ Quora question pairs using TF-IDF and XGBoost to identify duplicate questions with 81.93% prediction accuracy.
- Built a Flask-based prediction API enabling real-time duplicate question detection for efficient text analysis.

AI Video Summarizer | *Python, Streamlit, OpenAI Whisper, FFmpeg, Groq API* | [GitHub](#) | [Live](#)

May 2026

- Developed an AI-powered video summarization application that processes uploaded videos by extracting audio, transcribing speech with OpenAI Whisper, and generating concise, structured summaries using Groq LLMs.
- Built an end-to-end multimedia processing pipeline using FFmpeg, Whisper, and Streamlit, reducing the effort required to understand long-form video content through automated summarization.

Crop Yield Forecasting | *Python, XGBoost, Streamlit, Plotly, Gemini API* | [GitHub](#) | [Live](#)

Nov 2025

- Developed an XGBoost-based crop yield forecasting system achieving an R^2 score of 0.915 on historical agricultural datasets.
- Designed an interactive Streamlit dashboard with visualizations, AI-powered insights, and automated report generation to support data-driven agricultural decisions.

Alpha Next – Can You Hack It | *Flask, Gemini AI, JavaScript, HTML, CSS* | [GitHub](#) | [Live](#)

Aug 2025

- Architected an **LLM-based discussion analysis platform** integrating **3 NLP pipelines** for conversation summarization, sentiment analysis, and toxicity detection to generate actionable insights from discussions.
- Designed an interactive analytics dashboard visualizing **4+ moderation metrics**, including sentiment trends, toxicity scores, and discussion statistics, enabling efficient content moderation and decision-making.

Achievements & Leadership

Future Founders Internship @ OkCredit

May 2026 – Jul 2026

- Ranked among the **Top 12** nationwide out of **750+** participating teams, earning an **INR 10,000 cash prize** for developing a merchant solution.

Student Mentor, Counseling Committee

Aug 2025 – Present

- Guided and mentored 10+ junior students by providing academic support, peer mentoring, and career guidance.

Aakruti Global Design Challenge 2025 Semi-Finalist

May 2025 – Nov 2025

- Selected among the **Top 31** teams out of **1,200+** teams from India and China.

Student Volunteer, JAGRATI

Oct 2024 – Present

- Mentored 25+ underprivileged students through educational outreach and community engagement initiatives.
